

*Maximum	5/16" (8 mm) Glass		3/8" (10 mm) Glass		1/2" (12 mm) Glass	
Door Capacities	Weight	Width	Weight	Width	Weight	Width
*Using 2 Hinges	140 lbs. (63.5 kg)	39" (991 mm)	140 lbs. (63.5 kg)	39" (991 mm)	140 lbs. (63.5 kg)	39" (991 mm)

\*NOTE: Maximum of 2 hinges. Never use 3 hinges under any circumstance.

**Important Information:** 

This Atlas Hinge is spring-loaded and designed to self-center from 0-50 Degrees and Precise Closing to 0 Degrees.

### **Specifications:**

Glass Thickness Range: 5/16" to 1/2" (8 to 12 mm) **Construction:** Solid Brass Hinge Swings: 90 Degrees Inward and Outward **Closing Type:** Self-Centering From 0-50 Degrees and Precise Closing to 0 Degrees Cutout and Hole Required Includes: Gaskets. Screws and Glass Fabrication Dimensions

### Use of Gaskets:

For 5/16" (8 mm) Glass: Use one thick gasket on each side For 3/8" (10 mm) Glass: Use one medium gasket on each side For 1/2" (12 mm) Glass: Use one thin gasket on each side

### **Recommendations:**

For public safety, we recommend the use of only tempered safety glass. Do not use power tools when installing these hinges.

## Maintenance Guidelines:

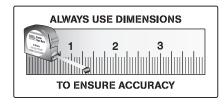

• Our hinges are greased at the factory for guiet and trouble-free operation. If there is any squeaking that occurs after installation, put a drop of "3 in 1 Oil" (also known as "household oil") on the washer that the hinge body pivots on. This washer is the component that acts as a buffer, so the body of the hinge doesn't pivot directly on the brass center block. This solution doesn't require the disassembly of the hinge.

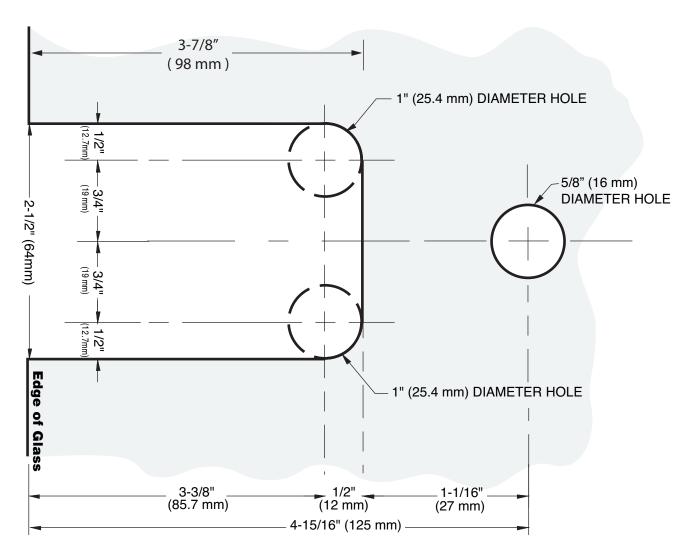

Note: Do not use spray lubricant on these hinges. If the hinge has been disassembled, upon re-assembly, use white lithium grease to lubricate the interior mechanism.

• Never use an abrasive cleaner on the hardware. Many of the components are coated with a clear lacquer that will be irreparably damaged if subjected to harsh, abrasive chemicals. Advise your customer that drving the hardware with a clean, soft towel on a daily basis is the best way to maintain the hardware. If mineral deposits build-up, mix a couple of drops of a mild liquid soap (such as lyory or a similar product) into a cup of warm water. Using a soft, non-abrasive cloth, clean the hardware. Rinse thoroughly with clean, warm water and dry.

C.R. Laurence Co., Inc. For technical assistance in the United States call toll free (800) 421-6144; from Canada call toll free (877) 421-6144; crlaurence.com Outside the U.S. and Canada call (323) 588-1281. Ask for Tech Sales at Extension 7740. Toll free fax (800) 458-7496. 4F-15

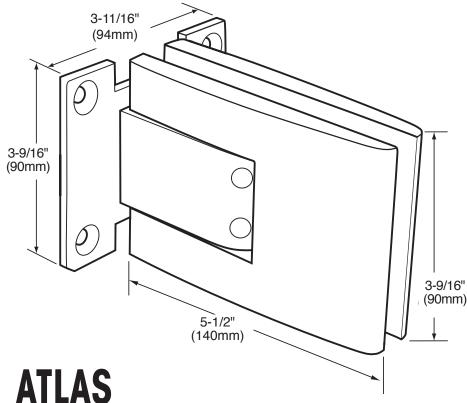

**Important:** Project measurements from the edge of the glass.
