FC-48: 48" x 28" x 47" / LOAD HEIGHT: 42" / WEIGHT: 170 lbs.

FC-82: 82" x 28" x 73" / LOAD HEIGHT: 60" / WEIGHT: 253 lbs.

APPROXIMATE ASSEMBLY TIME: 15 MINUTES

PARTS FOR ASSEMBLY:

- FC Base
- Caster Kit
- A-Frame
- Ratchet Straps

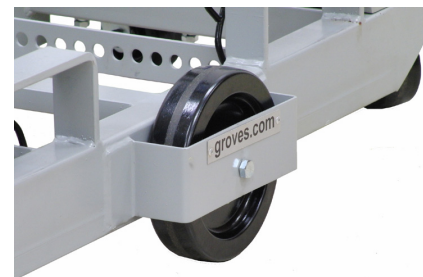

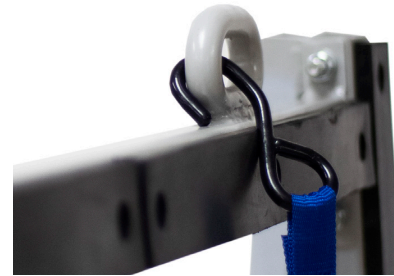

TOOLS NEEDED:

- 9/16" Wrench
- 11/16" Wrench
- 3/4" Wrench

1. Lay out base frame.
2. Insert large wheels into the wheel supports and using two washers per wheel slide axle bolt through assembly and tighten nut.
3. Attach casters using supplied bolts to the corners of the frame.
4. Attach the uprights to the base frames using the supplied hardware, making sure to only finger tighten the nuts.
5. Install the cross braces leaving the hardware loose until all cross braces have been installed.
6. Go back and tighten all hardware.

Safety Note:

Do not exceed weight or height capacities listed above.
