# Spandrel Glass

Mask your building's construction materials with our stunning glass options. Ideal for exterior, non-vision areas, spandrel glass is available as monolithic glass, insulating glass or laminated glass\*. Complement or contrast your vision glass for both new and retrofit projects with a wide variety of colors. In addition to black, white\*\* and standard options below, we can develop custom colors to create distinct visual characteristics for any building exterior.

Colors above may vary. Consult plant for color samples.

## Spandrel Applications

A wide range from functional to decorative:\*\*\*

- Masking structural components while maintaining a consistent glass look
- Custom Color Applications
- Non-vision Areas
- Curtain Walls
- Storefronts
- Wall Cladding

## Contact

Contact your Oldcastle BuildingEnvelope® representative, learn more online at [OBE.com](http://OBE.com) or call us at 1-866-OLDCASTLE (653-2278).

\*Must confirm the spandrel glass in-service temperature does not exceed the laminated glass interlayer maximum use temperature.  
\*\*Oldcastle BuildingEnvelope® recommends a low-iron substrate be used with white or light colors to limit perceived color variations.  
\*\*\*Spandrel glass is not intended for use in vision applications; aesthetic evaluation occurs from the exterior after the backing material – insulation, backpans, etc. – is installed behind the spandrel glass.
