

Vienna & Cologne Hinges Overview

Performance

- 110 lb max door weight with 2 hinges
- 36" max door width
- For 3/8" and 1/2" thick glass

Cologne Hinge
Beveled Edges

Features & Benefits

Strong and stable performance for doors up to 110 lb and 36" wide, delivering reliable operation in modern shower installs.

Long-term durability is ensured by a solid 5mm brass body with stainless steel internal components, providing structural integrity and corrosion resistance in moisture-rich bath environments.

Comprehensive portfolio of 15 hinge configurations enables easy specification across a wide range of shower layouts.

Large selection of finishes with 20 premium options designed to complement nearly any bathroom style and streamline fixture coordination.

Proven reliability for high-use shower applications, validated by 50K cycle testing - the equivalent of opening the door 5 times a day for 27 years --delivering lasting performance in demanding environments.

Reversible 5° pivot pin allows adjustment of the self-centering angle for precise door alignment and consistent closure.

Self-centering within 15° of the closed position with smooth, silent 180° dual-swing operation ensures dependable daily use.
