## Important Information:

- 1). This is a one-direction hinge and is designed for an outswing application only.  
**A door strike is required so the door isn't allowed to swing inward and damage the door glass.**
- 2). Door can be adjusted to close up to 1-1/2° in or out.

## Specifications:

**Glass Sizes:** 5/16" (8mm) to 3/8" (10mm) thick tempered safety glass

**Construction:** Solid brass

**Closing Type:** Self-centering when within 15° of closed position

**Cutout Required**

**Includes:** Gaskets, screws and template

## Use of Gaskets:

**For 5/16" (8mm) Glass:** Use one thick gasket on each side

**For 3/8" (10mm) Glass:** Use one thin gasket on each side

## Recommendations:

For public safety, we recommend the use of only tempered safety glass. Do not use power tools when installing these hinges.

## Maintenance Guidelines:

- Never use an abrasive cleaner on the hardware. Many of the components are coated with a clear lacquer that will be irreparably damaged if subjected to harsh, abrasive chemicals. Advise your customer that drying the hardware with a clean, soft towel on a daily basis is the best way to maintain the hardware. If mineral deposits build-up, mix a couple of drops of a mild liquid soap (such as Ivory or a similar product) into a cup of warm water. Using a soft, non-abrasive cloth, clean the hardware. Rinse thoroughly with clean, warm water and dry.
