

May 7, 2019

**Supplier Address:**

C.R. Laurence Co., Inc.  
2503 E. Vernon Ave  
Los Angeles, CA 90058-1826  
Telephone: (323) 588-1281

**Catalog Number:** 95C Oxime - LEEDv.4

**Product Content Information**

Materials & Resources Credit 4: The percentage of postconsumer and preconsumer recycled content of 95C Oxime is zero and therefore cannot contribute to this credit.

Materials & Resources Credit 5: This credit relates to 10 – 20% of the total material cost of products extracted, harvested, or recovered, as well as manufactured within 500 miles of the building site location. Because of Premier Building Solutions’ supply chain, distances between suppliers and manufacturing sites, 95C Oxime cannot contribute to this credit.

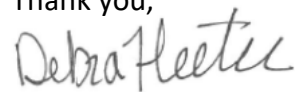

**Low Emitting Materials Product VOC Information**

This document confirms VOC quantitative data of the product listed below, as a contribution toward satisfying IEQ Credit 4 under LEED. Products are not reviewed or certified under LEED. LEED credit requirements cover the performance of material in aggregate, not the performance of individual products or brands. For more information on LEED, visit [www.usgbc.org/leed](http://www.usgbc.org/leed).

95C Oxime is a silicone architectural sealant with a VOC content of 30 g/L, less water and exempt solvents. VOC levels are lower than the limits established by SCAQMD Rule 1168.

Should you have any questions or require additional information, please contact your C.R. Laurence Sales Representative.

Thank you,

Debra Heeter  
Lab Manager
